RING SIZING GUIDE

Before measuring your finger size, please make sure the document is scaled to 100% for the highest accuracy

MEASURE AN EXISTING RING THAT FITS

Below is a collection of diameter sizes to correspond with specific finger sizes. Place your existing ring over top of the circle to determine the inside diameter of the ring. If your ring is between two sizes, we recommend you choosing the larger of the two, or a $\frac{1}{4}$ size interval.

You should see the whole circle with no gray outline showing.

4 14.9 mm	4.5 15.3 mm	5 15.7 mm	5.5 16.1 mm	6 16.5 mm	6.5 16.9 mm	7 17.3 mm
7.5 17.7 mm	8 18.1 mm	8.5 18.5 mm	9 18.9 mm	9.5 19.4 mm	10 19.8 mm	
10.5 20.2 mm	11 20.6 mm	11.5 21 mm	12 21.4 mm	12.5 21.8 mm	13 22.2 mm	

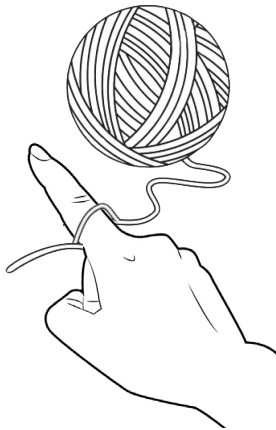

RING SIZING GUIDE

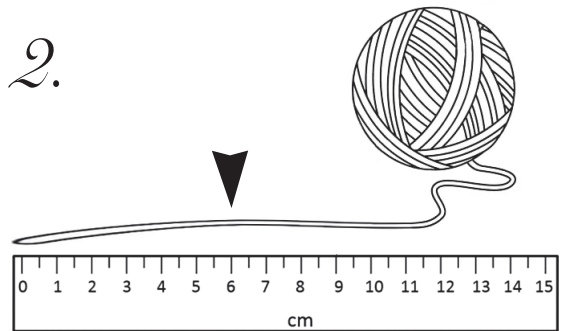

THE STRING METHOD

1. Start by finding string and a ruler around the house.
2. Cut a length of string to a couple inches and wrap it around your finger. Be sure to keep the string loose enough to be comfortable, but also snug enough not to slip right off.
3. Mark the string where it overlaps, then measure the string on the ruler using the chart below.

RING SIZING GUIDE

CONTACT US FOR A COMPLIMENTARY RING SIZER

You can contact us to request a complimentary ring sizer. Simply let us know your name and shipping address and we will send one out as soon as possible. Once you receive the sizer, try them on to find the best fit. If you are between two sizes it is best to go with a $\frac{1}{4}$ size increment. The finger size can be found embossed into each ring with either a number or a number and a dash. The number and a dash is a half size. Feel free to contact us at any point for sizing help as well!
